Here's what's on the roadmap for Teams:Shared Cloud Libraries, for a single source of truthPrototype previews for user testing and researchEasy organization with projectsFree developer handoff, right inside the browserTwo-factor authentication and SSOReal-time collaborative editingArtboard-level annotations and commentsAdvanced sharing optionsIntegrations with the Cloud APIPricing that's ready to scaleYour Teams subscription cost is based only on the number of people in your team that use the Mac app to design and edit files (we call them Contributors).. Add a Viewer to your team so they can see everything you share, or invite people to individual documents.. In order to view your own models in AR, you will need to have an active SketchUp Shop, SketchUp Pro, or SketchUp Studio subscription.. Now there's no need to own a Mac or manage multiple plugins for developer handoff.
